PROFILE

Student of computer science that is aspiring to become a software engineer.

Skills:

- C
- C++
- Java
- Python
- Dart/Flutter
- Firebase/Google API

EMPLOYMENT HISTORY

Self-employed

Gdańsk

Sep 2022 — Jan 2023

My venture into entrepreneurship as a shoe reseller provided invaluable insights into the workings of the real world, deepening my knowledge about business dynamics. Balancing supply and demand, managing finances, navigating basic tax obligations, and applying Python in real-world business scenarios not only enhanced my understanding of practical business operations but also strengthened my ability to apply programming to solve real-world problems.

EDUCATION

Engineer of Computer Science, Politechnika Gdańska

Gdańsk

Sep 2022 — Jun 2023

Even within one year of studying computer science at Politechnika Gdańska, I have embarked on a remarkable educational journey. The curriculum has exposed me to the intricacies of algorithms, data structures, and programming languages, allowing me to broaden my knowledge and proficiency in this rapidly evolving field of study.
